### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael P. Dunnam on 3/9/10.

2. Claims 1-4 and 6 are allowed in response to the amendment to claim 1 below. Claim 5 is cancelled herein.

3. The application has been amended as follows:

Claim 1 (Currently Amended): A method for exchange of pseudonymous personal information between two or more data storage servers or within a data storage server in which the identities of persons, associated servers and/or associated organizations with which the personal information resides is pseudonymous, comprising:

assigning respective unique identifications (UIDs) to persons having private data for storage;

registering the persons with a pseudonymous proxy server as at least one of a plurality of respective user types based on the respective person's relationship to the stored private data with associated pseudonyms for each user and sets of rules that control access to the respective person's stored private data and pseudonyms for the respective person's stored private data by persons registered with the pseudonymous proxy server based at least on user type;

providing service provider identifiers to each person that identifies the respective persons to a service provider;

the pseudonymous proxy server providing each person's associated pseudonym and each person's service provider identifier with a random factor;

transmitting a message from one of the persons to the service provider through the pseudonymous proxy server, wherein the pseudonymous proxy server receives the message and, based on the set of rules that control said one person's access to the stored private data of a person registered with the pseudonymous proxy server, validates a relationship between said one person and the service provider and transmits the message to the service provider if the relationship between said one person and the service provider is validated; and

said pseudonymous proxy server authorizing said one person to view the stored private data of said person or pseudonyms for said private data of said person based on said

set of rules that control said one person's access to said stored private data of said person and said pseudonyms for said private data of said person;

wherein the pseudonymous private data for a person registered with the pseudonymous proxy server is the person's medical records and said two or more data storage servers are controlled by respective medical service providers, where said person and said respective medical service providers are permitted access to said person's medical records based on said set of rules, and wherein a transfer of said patient's medical records from one medical service provider to another medical service provider includes the replacing of the another medical service provider's name with a pseudonym, pseudonymizing the person's medical records in accordance with the another medical service provider's access rights, and providing the access rights to the another medical service provider based on authorization to the person's medical records as granted by the person.

Claim 5 (Cancelled).

4. The following is an examiner's statement of reasons for allowance: the language of the previously numbered claim 5 is not taught or reasonably suggested by the prior art of record. For example, the transfer of a patient's medical records from one medical service provider to another medical service provider wherein the another medical service provider's name is

replaced with a pseudonym and the medical records of the patient are pseudonymized in accordance with the access rights of the another medical service provider (when considered in the context of the language of claim 1 and the other language of the previously numbered claim 5).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
